HYDROMETRIE

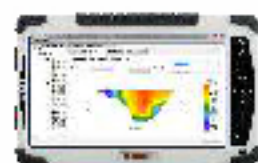

HydroProfiler M-Pro

Mobile acoustic flow profiler

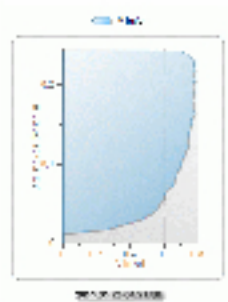

The mobile ADCP sensor for use on rod

Key Features

- Measurement of 2-D flow velocity profile in up to 128 cells
- Integrated water level sensor
- incl. Software HydroProfiler
- Discharge Calculation according to EN ISO 748
- Data export to software Q 3.0
- Measurement and Operation with robust weatherproof HDA-Pro

Operation & Evaluation
with **Tablet-PC**
and Software **HydroProfiler**
